How to Embed Video in Blackboard

1. Find the video you want to use in Films on Demand
2. On another tab (or browser window) login to Blackboard and click on the course you want to embed the video
3. From the right-side menu, click on COURSE CONTENT

4. Once the page loads, click on the BUILD CONTENT drop-down menu
5. Then click on ITEM
6.

7. The EDIT ITEM window will open - this is the area where you write the content of the course.
8. Leave this window opened for now, return to the window (or tab) that has Films on Demand
9. In Films on Demand, click on the EMBED link located underneath the video window.

10. The EMBED CODE will open underneath the video.
11. COPY this code— you MUST select the code (highlight it with your mouse) and then copy it using one of the following methods:
   - Hold the CTRL key AND then the C key on your keyboard
   OR
   - Right click in the selected area and select COPY
12. Return to BLACKBOARD
13. In the EDIT ITEM box, click on the HTML icon, to open the HTML CODE VIEW window

Text

Click on the HTML button

(if the HTML button is not visible, click on the double headed arrow on the far right corner, to display the complete edit menu options.)

15. Right click on the blank area and choose PASTE (or use the CTRL + V keyboard shortcut). Then click on UPDATE.

16. Click on SUBMIT to create your content. (NOTE: Your embedded video may not display immediately. It takes a few seconds for the video to show after you embed it (this depends on the speed of your Internet connection). If after a few minutes, you still do not get a video, try the process again.)
17. You have successfully embedded a video from Films on Demand to your Blackboard course.

** If your video is not showing, it might be blocked by the security software. Please refer to the browser workaround instructions from E-Learning found here: http://www.pgcconline.com/technicalSupport/whichBrowser

These instructions are also available online, you can find them here: http://pgcc.libguides.com/faculty_resources/embedvideo
